Mr. Cormack Makes a Spirited Speech Beveridge Takes an Active Part In the Discussion.

Washington, Feb. 3 .- Another spirited debate with the Philippine tariff bill as the text was precipitated in the Senate today as the result of some statements made by Mr. Carmack (Dem., Tenn.) in the course of an extended speech on the general Philippine question. It was the Tennessee senator's first speech in the Schate, and he was given notably good attention on both sides of the chamber. He spoke without manuscript, with earnestness, force and eloquence.

At the conclusion of his address, which had been listened to by many of his former colleagues in the House of Representatives, Mr. Beveridge of Indigan challenged some of his statements. The debate which ensued was very lively for a few minutes, taking on a political phase which proved particularly interesting to the auditors, who

INCREASE OF SALARIES.

The measure providing for an in-crease in the salaries of United States judges was under discussion for an hour. In the course of debate the case dudge Arthur H. Noyes of the disrict court of Alaska was drawn upon show why some judges should not given the increase,

At 2 o'clock the Philippine tariff bill was laid before the Senate, and Mr. Carmack of Tennessee, a member of the Philippine committee, delivered a speech in opposition to the pending measure. He contended that Congress was not prepared to deal understandingly with the Philippine situation in any of its phases, because it was not familiar with the facts. The bill, he said, had been framed by the Philip pine commission, an autocratic body, 18,000 miles away, and not a change had been made in it by Congress.

This bill," said Mr. Carmack, "is framed on the theory that the Philippine islands as pine islands are a deadly menace to our own trade and that the less we trade with those islands and the less we have o do with them the better it will be or us. The only trade that will floursh under such conditions is that of the exploiters, and it is proposed to turn the islands over to them. It is for the benefit of the carpet-baggers and not for the benefit of the American People that a war of criminal aggression is being waged in the Philippine klands.

He charged that the United States had holding a false, fraudulent and delusive hope out to the Filipinos, and that we were killing these people for the salvation of their souls and build-ing up the church of God out of hu-

Mr. Carmack maintained that by following out the policy of conquest for-mulated by the majority in power the United States was pressing itself into all the bickerings and quarrels of the world. Under such a policy no peace was in view for this government.

A CHALLENCE BY BEVERIDGE.

At the conclusion of Mr. Carmack's speech Mr. Beveridge, a Republican member of the Philippine committee, sharply challenged a statement by the Tennessee senator that the Philippine tariff had not been well or carefully considered. As a matter of fact, he said, the tariff scale was fixed after months of consideration and after consulting every interest in the Philip-

He asserted that the reasons why he "moderate, thoughtful and conservative people of the country"had not followed the Democratic party in its opposition to the proper control of the Philippines and in other matters of national policy, was that they feared that party would "sow the dragon's teeth from which would spring a har-

As he was proceeding to discuss pine islands, Mr. Tillman of South Carolina interrupted with the inquiry;
"Will the senator be explicit and give us the benefit of his personal observation or any of the information he has in regard to the dispatch from General Bell that he proposes to make war so terrible, that they would want peace and want it bad? Is that true,

A SAD CASE.

A Young, Strong Man, Apparently in Perfect Health, Took a Slight Cough and Died Within One Week.

The Doctors Attending Him Said: "Had He Taken Duffy's Pure Malt Whiskey While He Thought He Was Healthy, It Would Have Built Up New Tissue and Prevented His Untimely Death."

Thousands like this young man are run down and their blood is impoverished, and they do not know it until it is too late. The case mentioned is of a young, athletic fellow, 28 years of age, who was the picture of health. He contracted a slight bronchial cough on Weinesday, which gradually grew worse until Friday night, when he had a hemorrhage of the iungs, which cut him off in the prime of life. He died the next Wednesday, just one week from the day he went home apparently a strong man.

Lessons like this should teach every one to be careful of the condition of the system. See that the blood is kept rich and circulates perfectly, and that the tissues of the body are not wasting without your knowledge. If you think the system is run down, if you take cold easily, if you have a hacking cough, a tickling in your throat, take Duffy's Pure Mait Whiskey. It will cure the cough and cold and prevent any further complications. Duffy's Pure Mait Whiskey is absolutely pure and contains no fusel oil or other dangerous ingredient. Do not fill your system full of drugs and compounds that you know nothing about. They injure the stomach and merely deaden the pain. They do not cure. A leading New York doctor said: "DUFFY'S PURE MALT WHISKEY is a form of food already. digested." It aids digestion, stimulates and enriches the blood, tones the heart, builds new tissue, gives elasticity to the muscles and invigorates the brain.
